

Instruction for ICNSP 2022

Poster Session

Date and time (Check also the conference timetable)

- ◆ Poster Session 2B, 31 August 2022, 5:30pm-7:00pm JST
- ◆ Poster Session 3A, 1 September 2022, 9:30am-11:00am JST

Access from the ICNSP registration site, <https://icnsp-office.nifs.ac.jp/icarus/>

- All posters can be presented in the two sessions (both or either, depending on their time zones).
 - The poster session pages will open around 3 hours before the session starts.
 - Interactive presentations are available by using "Remo". <https://remo.co/>
Remo Technical Requirements: <https://help.remo.co/en/support/solutions/folders/63000197942>
 - For practice using Remo, we have set four test sessions before the conference.
 - Test of Remo for Poster Session (1st), 29 August 2022, 6:00am-11:00am JST
 - Test of Remo for Poster Session (2nd), 29 August 2022, 12:00pm-5:00pm JST
 - Test of Remo for Poster Session (3rd), 29 August 2022, 6:00pm-11:00pm JST
 - Test of Remo for Poster Session (4th), 30 August 2022, 12:00am-5:00am JST
- Access from the ICNSP registration site, <https://icnsp-office.nifs.ac.jp/icarus/>

How to use Remo

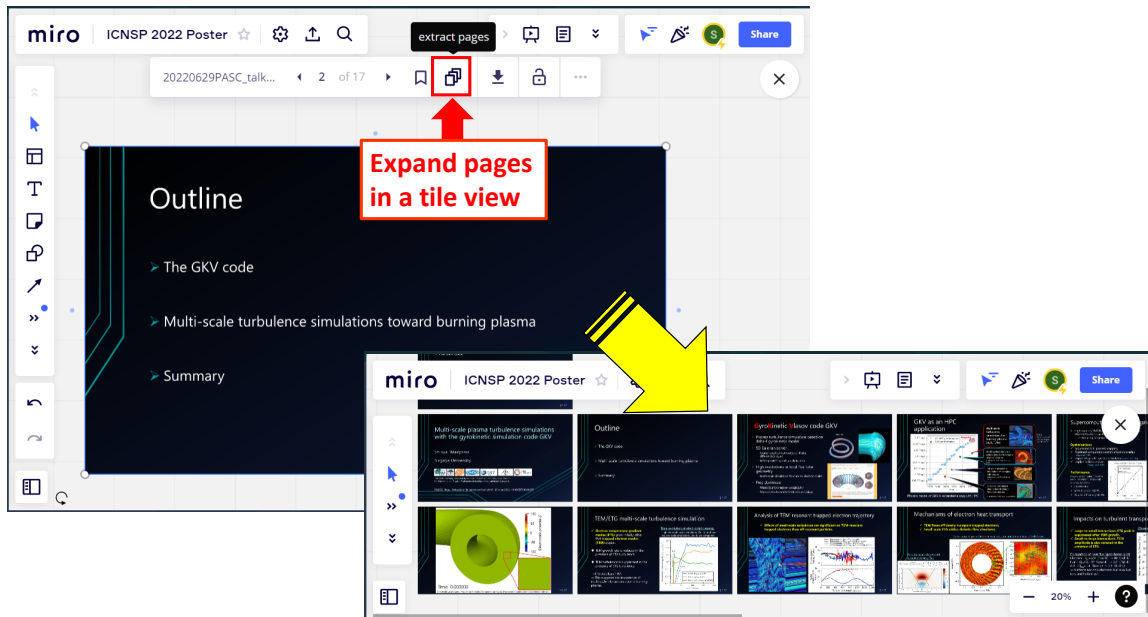

What can we do on Remo?

- Virtual poster session.
- Interactive discussion using Cam. & Mic.
- Presenting poster slides on "Whiteboard", or "Share screen".
- Enjoy insightful discussions!

† Ask questions to an ICNSP 2022 LOC staff, waiting on the 1st floor during the Poster session.

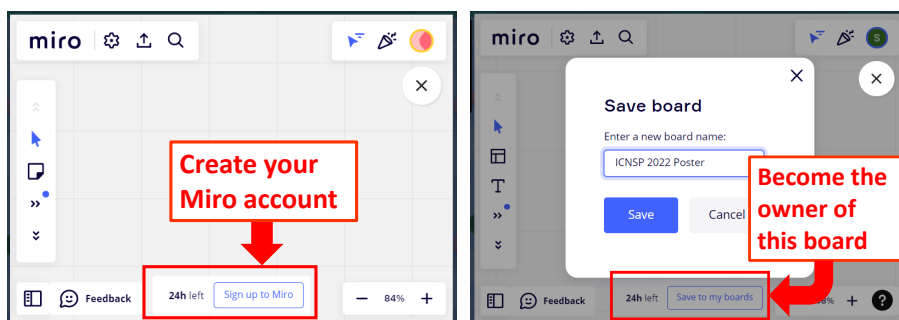

5. If your file contains multiple pages, you can expand the pages into a tile view by the “**extract pages**” button. This allows the attendee to see your poster depending on his interests.

6. To start a discussion, there are two ways.
 - i. Use “**Whiteboard**”. The attendee can see your cursor. You can draw by using a pen.

7. Movie cannot be directly pasted on a whiteboard, which requires some steps (upload your movie to a server and import it by using *iframe* code). The simplest way to show a movie is “**Share screen**”.
8. (The below is not necessary but recommended.) Whiteboard on Remo is implemented by Miro.
 - ✓ Create your Miro account to become the owner of this board.

- ✓ The owner can lock the materials from a right-click menu, preventing attendees from accidental editing. Windows shortcuts: select all materials ([Ctrl] + [A]) and lock them ([Ctrl] + [L]).
